

Day 1 of remote sensing

1- Sentinel site

The screenshot shows the Copernicus Browser interface. On the left, a sidebar contains a search bar and a list of search results. The main area displays a map of Egypt with a grid of blue rectangles representing Sentinel-2 MSI data. The search results list includes the following information for each entry:

- Search results showing 50 results of 716.
- Search criteria: S2C_MSIL2A_20250830T082711_N0511_R021_T36RVT_20250830T132613 SAFE.
- Mission: SENTINEL-2.
- Instrument: MSI.
- Size: 1052MB.
- Sensing time: 2025-08-30T08:27:11.025000Z.

2- Landsat site

The screenshot shows the EarthExplorer interface. On the left, a sidebar contains a search bar and a list of search results. The main area displays a map of Egypt with a grid of blue rectangles representing Landsat 8-9 OLI/TIRS C2 L2 data. The search results list includes the following information for each entry:

- Search results showing 4 results of 523.
- Search criteria: LC09_L2SP_176038_20250828_20250830_02_T1.
- Date Acquired: 2025/08/28.
- Path: 176.
- Row: 038.
